SUPPLEMENT

November 14, 1963

Dear Erik:

Enclosed for your consideration are three suggestions by Al Mitchell for "gadgetry" involvement of the Center during the President's luncheon speech on November 22. If none of these three suggestions seems appropriate, please let us know. We have four or five other ideas which can be presented for consideration.

As I suggested to Nelle, I think it would be advisable for Al Mitchell to sit down with the President's representative who will be working out the many details involved in this seemingly inconsequential action.

Sincerely,

Mr. Erik Jonsson
