(Tactic 8C)

Senator George Parkhouse says he's going into a ~~min~~ hospital for surgery, thus will not be in charge of the lieutenant governor's visit in Dallas on above dates.

He agrees that Smith should visit the Center; Parkhouse will proceed with requests to various people to get such a visit into the schedule.

Net result: I should receive a call today from:

Called Mon 1-27- Sam Kimberling, ^{State} ~~Texas~~ Chartered Banks Association, or
Lee Herring, Grand Prairie State Bank, or
Preston Smith's office in Austin.

If I have to pull out with Bob Fenley on some Geosciences Division feature development, I'll ask the switchboard to route the call to you. I'm planning to take Bob to Plano at about 9:30 a.m., unless his assignment schedule interferes.

OK to call + adv'ise Bob

Dear Mr. Brown:

Many thanks for your nice letter of January 10 in which you extended me an invitation to visit the Science Research Center in Dallas when I am in that area.

At the present time, I plan to be in Dallas on February 4-6 with Senator George Parkhouse, and we will be visiting different areas of the city.

This would be a good opportunity to visit the Center, and if you would contact Senator Parkhouse, perhaps this could be arranged. I know that I would enjoy very much making a brief visit and seeing the type of operation you have there.

Sincerely,

Preston Smith
